

Sheffield Greenground

Do you know of a city in the world that has more than 61% greenspace? No, neither do we...

We have more than 800 managed green spaces across 4,000 hectares within the city boundary – but fitting them all onto this map would get a bit too busy, so we chose to highlight these 356 to help show you how they can all be connected from your doorstep, whether you live here or are just visiting.

#TheOutdoorCity

- GR - Recreation Ground
- OS - Open Space
- NR - Nature Reserve
- Walking
- Cycling
- Swimming
- Bird watching
- Viewpoint
- Campsite
- Bouldering / Climbing
